

Top 5 Subnetwork :Top 10 Enriched KEGG Terms

KEGG Terms

Mitophagy – animal (1/105)

Notch signaling pathway (2/62)

Mismatch repair (1/23)

Nucleotide excision repair (1/63)

Homologous recombination (1/41)

DNA replication (1/36)

Base excision repair (1/44)

ATP–dependent chromatin remodeling (1/117)

Spliceosome (1/235)

Pyrimidine metabolism (1/58)

Glutathione metabolism (1/59)

Nucleotide metabolism (1/85)

Drug metabolism – other enzymes (1/81)

Purine metabolism (1/128)

Thermogenesis (2/235)

Cellular process
Immune system
Genetic Information Processing
Metabolism
Energy system
